Notice Extraordinary I
WE WOLLD NOTIFY the merchalit and
the public generally in the Westert States that
the Match Manufactory of R. W. PIERGE & CO., Milwauker, Wis, in in fall and successful-operation, notwithstanding the declarations of a match concern in Dutroli,
Mich., that our establishment had burned down—that R.
W. PIBOU & Co. had falled—that no more R. W. PIBOU &
matches would be seen in market, &c. &c. We are well
aware that all such assertions will in due time recoil with
bad effect upon the party who originated them, and what
wa wish is, that the public should be set right in the matter.
We now have facilities for manufacturing matches as
obeing, or cheaper than any other establishment in the
West, and as to the quality, we will leave thous who have
used them for the last thirteen years to be the judges, and
will only remark that our housens has increased from less

I have fold out my stock of Books, Stationery, &c., to Henry Krimpshii, who has been with me during the past year, and for the four persons years with Meszra D. Appleton & Oo., of New York.

It is with no ordinary regret that I relimquish a pleasant and uncestral business, and close the connections which have existed between mysel, and my customers.

In Mr. Kempshill, I am assured that my old friends and patrons will find a thorough business map, who will treat them contrously, deal henorably, keep a good stock, and sell at reasonable prices.

The Government of the United States recognizes the authority of the territorial government in all matters which are within the scope of the organic act of Congress and consistent with the rederal constitution. I hold that there can be no other rightful authority exercised within the limits of Kansas, and I shall proceed to the faithful and impartial execution of the laws of the territory, by the use of the means placed in my power, and which may be necessary to that end.

The Government especially recognizes the territorial act which provides for assembling a convention to form a constitution with a view to making application to Congress for admission as a State into the Union. That act is regarded as presenting the only test of the qualification of the Reciprocity Treaty has crowned the work and left nothing more to do.

That act is regarded as presenting the only test of the qualification of rotes for delegates to the convention, and all preceding repugnant restrictions are thereby repealed. In this light, the eat must be allowed to have provided for a full and fair expression of there is now no question which can ever up but will meet with a safe and honorable to have provided for a full and fair expression of the will of the people through the delegates who may be chosen to represent them in the constitutional convention. I do not doubt, however, that, in order to avoid all pretext for resistance to the peaceful operation of this law, the convention, itself, will, in some form, provide for submitting the great distracting question regarding their social institutions, which has so long agitated the people of Kanzas, to a fair vote of all the actual ona fide residents of the territory, with every possible security against frond and alliance, for I think there may be co-operation without withings; and where the heart is wanting, there may be written engagements, and yet no co-operation. Lupingron, from Menomonee, some fifty miles north of Green Bay, dated April 22d, stating that nearly four feet of snow had fallen since the lat of April, that the ice in the Bay was as firm and fast as in mid-winter, that the woods were full of snow, the streams and springs of water, and the Menomones river of ice; and that without a great change in the weather, vessels

The Detroit Tribune of the 29th has the follow-

ing:

The schooner Mary A. Hulbert, Capt. N. W. Kirtland, arrived here to-day from Machinack, whence she sailed last Saturday. When Capt. K. left, there were eighteen inches solid "black ice" in the Straits, and it was impossible for navigation to be open for a week to come.

The Hulbart met the Lady, Eighn on Sunday, ten miles below Bois Blanc. Between Presque I-le-and Thunder Bay she met ten or fifteen vessels bound for the Straits.

Milwaukee and Hericon Railroad. OPENING THE BOOKS. The books of the Milwaukee and Horicon I R. Company will be opened at their office in this city, to-day, for the purpose of obtaining an additional subscription to the capital stock, of \$1, 250,000, to be applied in extending the road ficm Stevens Point, on the Wisconsin river, to Lake Superior, or the St. Croix. We have so often expressed our high opinion of this enterprise and of the prospective value of its stock sea. His excessive verdancy amused the crowd that it would be superfluous to say anything or and convolsed the negro cook, and some of the that point now. As a mere monied investmen we think that every dollar subscribed and paid crew showed that, having seen the slaver's outfit to the capital stock of this Company is safely and judiciously appropriated. But there is a new feature connected with this additional stack subscription, which ought to commend it to universal favor. The Company propose to buy from the General Government one million acres of land, to be selected along the route of the road; one-half to be applied to the building of the road and the other half to be apportioned among the subscribers of the additional stock. Thus,

every subscriber to the amount of \$200 will recaive one full paid share of regular stock, and one of privileged stock; the latter entitling bim to an 80 acre tract of land, from among the million acres purchased by this Company. distribution of these 30 acre tracts will be fairly and equitably made; and us there must be vil lage and town sites, water powers, valuable tim ber tracts, &c., among them, holders of the privileged stock may draw rich prizes in this division of property, and will certainly get three or four times the worth of their money. Circulars, detailing the plan of operations, can be obtained at the office of the Company. We have only add, that in our judgment, it offers to the man of amall means, desirous of securing a homestead, as well as to the capitalist, looking for large resurns for the investment of his money, the most tempting opportuaity of the day. We es-

Address of the Acting Governor of We publish, to-day, the address of Mr. Stanrow, the acting Governor of Kansas, on assuming the duties of his post. It is a smoothly written, specious document, which furnishes no warrant to hope for better things than have heretofore existed in the Territory. Mr. Stanton tells the man!" And he said this with a chuckle and a people that he shall proceed to "the impartial execution of the laws of the Territory."-the bo gus laws, to wit, enacted by the Missouri invadors. He "does not doubt" that the Convention, to be chosen by the men whom the bogus officers have registered, will provide for a submission of the question of domestic policy (Slavery) to a fair vote of the people-a marvellous instance of confidence in the Border Ruf fian party. He promises to exert his power to prevent fraud-and he believes that a general amnesty ought to be declared by both parties relative to the past, and all prosecutions for past offences dropped. Murders and outrages innumerable have been committed upon the free state settlers, partly without color of law, and partly by the officers selected to carry into effect the bogus laws; and for these the settlers are told to seek no redress, while the acting Governor

pledges bimself to proceed to the execution of those infamous enactments, every enforcement of which is an outrage in itself! Poor encouragement this, to the free state men. Their future is in their own hands, and no good thing can be expected by them from the administration of Mr. Stanton. Judge Jeffri . Lecompte still holds sway, and the murderers,

Emory and Murphy, are the confidents and pets of Mr. Buchanau. DICK THOMPSON AND THE NEWS .- The News invites us to "correct our error" as to the poli. tics of Dick Thompson, a protage of the News and recipient of a forty thousand dollar fee from the Buchanan Administration. We have made no "error" in the case. We spoke of Dick Thompson as a renegado Whig and rampant Know-Nothing, and added that he helped to di vert votes enough in Indians, from Eremont to Fillmore, by the Knew Nothing dedge, to give that State to Buchanan. This was the primery object of the K. N. organization everywhere, and it succeeded in Indians, Illinois and Pennsylvania. Dick has got his pay for his share of the performance, and no doubt the other K. N. wire workers will also be rewarded in due time. Remarkable Analysis. The Miss of yesterday, in announcing the death of John G. Montgomean, M. C. elect from the 12th District of Pennsylvania, who is sup posed to have fallen a victim to the National Hotel disease, makes the following intelligent

and charitable comments: These deaths are painful illustrations of the madness of the abolition fanatics. We helieve no scientific man that has analyzed the disease no scientific man that has analyzed the disease doubts but that it is the effect of poison thrown into the food or water of the Hotel, by some crazy abolitionist, with the foul intent to destroy the President.

We regret that the News does not inform our uxious public by what process scientific men, who have "analyzed" the National Hotel disease, arrived at the certain conclusion that it was the result of poison administered "by some crazy holitionist, with the foul intent to destroy the President." One can understand how traces of oison might be discovered "in the food, or wa ter," or in the bodies of the victims to this mysterlous disease, but what searching " analysis" disclosed the perpetrator of the crime, and the precise motive which prempted the deed, is a puzzle known only to the News. Surely if "acientific men" could discover this much by "anayeis," they could have as easily gone farther and

ound out exactly who did administer the fatel We confess our incredulity in the pleasant hypothesis of the News, and the more so, that its loving york fellow, the American, while equally positive about the "poison," attributes the crime o quite another set. Here is the American's

THE WASHINGTON EPIDEMIC.—It is now generally conceded that the National Hotel epidemic was nothing less than an attempt to poison President Buchanan. We should'nt be at all surprised, as a larger number of the News' or outlawed faction of the Democratic party of Wis-

msin, were in Washington at the time. When two such Democratic doctors as the News and the American disagree, it is not for 13 to decide. Whether the outlawed "Forty," or the "abolition fanatics" were the Bergias of the National Hotel, will probably, therefore, remain a secret, unless the Naws can prevail upon scientific" authorities to push their remarkable

The verda**nt** individual did not seem to know a smoke pipe from a mainmast. The necessary information being obtained, our rordant friend left the vessel, still searching for his brother. Whether or not that missing relative has been found, the papers do not say; but, next day, the schooner Merchant was everhauled by a steam tug when going down the bay, and

wought back, and moored under the guns of a evenue cutter. A Wisconsin Democrat Convinced. Our old democratic friend, John Y.
